

A community social awareness initiative developed in response to a Rotary International challenge to create projects that will reduce infant mortality and make a difference in the lives of children. A Make Dreams Real Project initiated by Rotarians of the New Hartford, Utica, Saugoit, North Utica/Whitestown and the Greater Utica Sunrise Clubs.

Takes a MAN to be a DAD

Every child
deserves the chance at a healthy life.
Unfortunately,
every day,
some 30,000 children
under
the age of five
die from preventable causes.

“High rates of family fragmentation impose extraordinary costs on taxpayer. Reducing these costs is a legitimate concern of government, policy makers, and legislators, as well as civic leaders.”

Benjamin Scafidi,
From the 2008 report to the Nation
