

Rotary Club Commitment Letter for El Salvador Water Project

The Rotary Club _____, (Club # _____) is proud to support the Pure Water for the World's initiative in El Salvador. The members of my club understand the critical need for potable water and want to help provide clean drinking water to those who live without.

We pledge \$ _____ (US dollars) toward a matching grant to help the people in remote regions of El Salvador. We know that the Rotary Club of Highland, NY, USA will be responsible for all the necessary paperwork and reporting required by this grant and look forward to receiving updates on the progress of this project.

We realize that this matching grant will cover some of the costs of this project and that additional support may be requested.
